

Technical drawing of a road profile. The vertical axis on the left shows elevation in meters, ranging from 12.00 to 44.00. The horizontal axis represents the road's length, with stationing markers. The profile line shows the road's elevation, with various points labeled, including PRJ1, PRJ2, F3, F4, F5, and F6. Key points and their elevations are: PRJ1 (40.80), PRJ2 (40.52), F3 (36.51), F4 (31.00), F5 (26.20), and F6 (17.52). The drawing also includes labels for various points (v1, v2, v3, v4, v5, v6) and points of interest (mo4, mo6, FZ1). The profile is supported by vertical lines representing the road's structure.
